Education

Bahauddin Zakariya University

2018-22

Bachelor of Science in Computer Science (GPA: 3.43 / 4.00)

Multan, Pakistan

- **Relevant Coursework:** Object Oriented Programming, Data Structures and Algorithms (C++), Operating System, Database Systems, Artificial Intelligence, Learn React 18 with Redux Toolkit - FreeCodeCamp

Experience

The Hexaa

Oct 2023 – Present

Software Engineer

Lahore, Pakistan

- Developed and maintained web applications using NestJS and React with tailwind.
- Built and managed RESTful APIs with Node.js for various functionalities.
- Implemented authentication and authorization mechanisms using JWT strategy and local Auth Guard.
- Designed and implemented database schemas and queries using PostgreSQL, MySQL, and TypeORM.
- Integrated Stripe for handling subscription plans and payment processing.
- Implemented the automated functionality with Cron Jobs.
- Implemented complex database aggregations and calculations for finance management projects.
- Ensured high availability and scalability of applications through efficient deployment with CI/CD pipelines.
- Wrote and maintained unit tests using Jest to ensure the reliability and robustness of the codebase.

Greyloops

Sep 2022 – Oct 2023

Junior Javascript Developer

Lahore, Pakistan

- Built and managed RESTful APIs with Node.js for backend services.
- Developed and maintained the frontend of web applications using Angular.
- Successfully handled multiple databases and ensured seamless connectivity within the same project.
- Manipulated and managed data across different databases, ensuring data consistency and integrity.
- Collaborated with the development team to design and implement new features
- Dockerized projects to create consistent and scalable development and production environments.

iSoft Studios

July 2022 – Sep 2022

MERN Stack Internship

Lahore, Pakistan

- Implemented RESTful APIs with Express and Node.js for efficient data handling and performed CRUD operations with MongoDB, enhancing the application's performance and user experience.

Technical Skills

Languages: Javascript, Typescript

Technologies: React.js, Node.js, Angular, Next.js, NestJS, Tailwind, Deployment, CI/CD Pipelines, Jest, npm, Husky, Docker, Postgres, MySQL, TypeORM, Sequelize, Git, JWT, Stripe, Stripe Recurring Payments, Cron Jobs, NPM Libraries, Material UI, Flowbite Tailwind, Cloudinary, Mail Service, Notification Service, Google Authentication.

Achievements

- Coursera Node.js course by IDM.
- The Complete Guide (MVC, REST API's, Node.js)
- ORIC Center BZU Mutan.
- MERN Internship By iSoft Studios Lahore.
- Volunteer Staff (LEO Club International).
